Compact design for flexibility

Hygienic and ergonomic, B4 flourishes in all environments – from boardroom to sports hall. Its compact size, large dispense area for bottles, multiple water options and flexible configuration make it Borg & Overström's most popular model.

Reasons to choose

– Ultra-hygienic touch-sensitive control panel
– High capacity dispense area for bottles and jugs
– Sealed, hygienic, direct-chill cooling system
– Floorstanding option comes complete with an internal alarmed waste kit
– Unique countertop sparkling model

Borg & Overström Totality®

Driven by a relentless pursuit of excellence, Borg & Overström Totality® is a research and development methodology for the advancement of hygiene, innovation and technology in refreshment systems.

Biofilm, limescale and impact resistant epoxy resin panel finish
Providing an increased level of hygiene and longevity, Fynil® is a scratch and impact resistant epoxy-resin surface finish - effectively resisting biofilm development and limescale cohesion.

World-class filtration
For the ultimate drinking experience, Borg & Overström appliances can be pre-fitted with a 3M filter to reduce sediment, chlorine, odours and scale.

Laboratory certified 99.999% bacteria-reduced
Every Borg & Overström appliance undergoes an anti-microbial, antipathogen, sanitising procedure. The reassurance of hygienically safe appliances is provided by the unique bacteria-reducing process, Sterizen®.

Ultra-violet sterilising system
For added hygiene confidence, appliances can be fitted with Viovandt™ – an ultra-violet sterilisation process that reduces water-born bacteria.

Additions for B4

Biodegradable paper cups
Environmentally-friendly disposable cups designed to fit Borg & Overström cup dispensers perfectly.

Personal drinking bottles
500ml capacity in black or grey frosted soft-touch finish. Comes with quick-release leak-proof cap and carry strap.

500ml Swing-top bottles
Suitable for dishwashers and bottlewashers. Perfect fit for the B4. Stylish swing-top lid.

Waste kit overflow sensor
Featuring an audible high-water level alarm to prevent the base cabinet waste tank from overflowing. Included as standard on floorstanding models.

Sanitisation kit
Six monthly sanitising cycles ensure appliances function at the optimum hygiene levels.

Leak detection kit
Featuring a moisture sensor that shuts the water supply in the unlikely event of a leak. Included as standard.

Deep Sparkle® CO^2 refills
Can be disposed via standard steel recycling or general waste. Requires CO^2 regulator with gauge.

Install kit with 3M filter
Install appliances simply and effectively in a wide range of applications. Complete with a 3M filter.

Ultra-violet filter kit
Complete Viovandt™ filter kit to assist in water purification and removal of unwanted micro-organisms.

Rear cover
Tamper-proof rear cover anchors the appliance to the wall and protects plumbing and electrical connections. Ideal for public areas.
