PowerSmart3
Table Top Water Boiler

Saves You Money & Reduces Your Carbon FootPrint

Features

- Saving Electricity: The PowerSmart3 ECO Sensor turns the Boiler off (Sleep Mode) when the office lights are off. This can save approx £40 pa in Electricity. There is an on/off switch to turn the ECO sensor off at the back.
- Reduced Carbon Footprint: Sleep Mode would at the same time save 175kg of carbon.
- Reducing Scale Build Up: Another benefit of Sleep Mode is that the unnecessary boiling during the night reduces the build up of scale and extends the life of the Boiler between de-scaling times.
- The PowerSmart3 is only 43.6cm tall to fit comfortably under overhanging kitchen cupboards.

Hourly output 17 litres/ upto 96˚C

6 litre rapid draw off
